

support the kill motion presented by Senator Wesely, and I hope that it passes. I hope we don't have to look at the 15 percent proposed by Senator Lamb because I wouldn't be able to support that either. That doesn't make it much better. I hope that the body will join in the kill motion and defeat 38. Thank you.

PRESIDENT: The Chair recognizes Senator Lamb and reminds you that 42 minutes have expired.

SENATOR LAMB: Mr. President and members, I might address a few remarks to Senator Hall. Omaha has an extra penny and a half on the sales tax to use for whatever, property tax relief. Lincoln will soon have an extra cent and a half on the sales tax for property tax relief. Now, of course, most of that money, I will admit, comes from Omaha. A lot of it comes from Lincoln, the people that pay that tax, but not all of it. So what Senator Hall is saying, we need additional sales tax, we like that shift from property tax to sales tax for Omaha. That is great. What the Lincoln delegation is saying by and large is, we like that shift from property tax to sales tax for Lincoln. That is great, we like it, but we sure don't like it for out there in the country. That is a different ball game. We have these great big crocodile tears about people out on the farm. A whole bunch of urban senators went back to Washington, said it is terrible what is going on. And it is, you know. It is really pathetic when...you talk about poor people in Omaha, I know that is true, I know that is true. There are people hurting in Omaha and Lincoln, but there are people out there that are hurting on those farms. And let me give you an example of what happens. Now your constituents there pay basically the sales tax on the money they earn because that is what they spend. Now out there we borrow money. You know, you borrow big chunks of money, a \$100,000 for a combine. You pay sales tax on that. So not only do we pay sales tax on the money we spend for living purposes, but we also spend it on borrowed money. We spend it for borrowed money. I would relinquish the rest of my time, Mr. President, to Senator Remmers.

PRESIDENT: Senator Remmers, three minutes left.

SENATOR REMMERS: Mr. President and members of the Legislature, I rise to oppose the kill motion. I do have a bill coming up, 505, and originally I introduced it for a
